MILK PRICING UNDER PUBLIC REGULATION IN THE UNITED STATES
A Selected Bibliography
Supplement II

Compiled by

Giannini Foundation of Agricultural Economics
University of California
Berkeley, Calif.

October 1965
In December, 1954, Miss Orpha Cummings, then Librarian of the Giannini Foundation of Agricultural Economics, published the original of these bibliographies. Supplement 1 was also compiled by Miss Cummings and published in September, 1956. The present supplement is an attempt to up-date these references to the wide body of literature on the public regulation of milk pricing. Specifically, references contained in this supplement are, for the most part, those that have been published and made available since 1956.

It should be noted that this bibliography does not purport to contain all of the relevant material on this subject. Rather it is a "selected" bibliography. In the main, it consists of those titles in this subject-matter area which currently are contained within the Giannini Foundation Library.

No authorship is attached to this bibliography, since no one person or persons can be said to have "developed" it. It should be noted, however, that this compilation would have been impossible without the generous and willing assistance of Miss Mary Lida Eakin, Librarian of the Giannini Foundation of Agricultural Economics Library and her able staff.

L. L. Sammet, Director
